

1206 Reverse Package 30 Degree

VS 8748

Description

The major breakthrough in VS 8748 is Red color emitted, package in dimension L x W x H, 3.2 * 1.6 * 1.8mm. The dice used in this series is AlGalnP material rather than the conventional GaP and GaAsP/GaP. The advantages of AlGalnP are low power consumption and obtaining high luminous intensity under low current driving condition. The Luminous Intensities of this series are grouped under 20mA for uniformity. These LED are suitable for multiple usages in series connection applications.

Applications

- Industrial control systems signal indicator
- Automotive features
- Front panel indicator
- Status indication
